2. About Magellan Asset Management Limited

Magellan Asset Management Limited trading as Airlie Funds Management (the **“Responsible Entity”**, **“Investment Manager”**, **“Magellan”**, **“we”**, **“our”** or **“us”**) is the Responsible Entity and Investment Manager for Airlie Australian Share Fund. As Responsible Entity, we are responsible for the overall operations of the Fund.

Magellan is a wholly owned subsidiary of Magellan Financial Group Limited, which is listed on the Australian Securities Exchange (**“Securities Exchange”**).

3. About the Airlie Australian Share Fund and units

When investors make an investment in the Fund, their money is pooled together with other investors' money. The Investment Manager uses this pool to buy investments and manage them on behalf of all investors in the Fund in accordance with the Fund's investment strategy. By investing in the Fund, investors have access to the investment expertise and insights of the investment team.

Units and NAV per Unit

An application has been made to the Securities Exchange Operator for quotation of units in the Fund. Once the Fund is admitted to quotation on the Securities Exchange, the units will be able to be traded on the Securities Exchange in a similar fashion to listed securities, subject to liquidity.

The NAV per Unit estimates the value of the Fund's units based on the value of the Fund's assets at the close of trading in Australia. The NAV per Unit will be published daily on the Fund's website at www.airlifundsmangement.com.au. The NAV per Unit may fluctuate each day as the market value of the Fund's assets rises or falls. The Responsible Entity's NAV Permitted Discretions Policy provides further information about how the NAV per Unit is calculated. Investors can request a copy of the policy free of charge by calling the Responsible Entity on +61 2 9235 4888.

The Responsible Entity has engaged an agent to calculate and disseminate an indicative NAV per Unit ("iNAV") which will be published on the Fund's website at www.airlifundsmangement.com.au throughout the Trading Day. The iNAV will be updated in respect of portfolio securities or equivalent securities that have live market prices during the Trading Day. No assurance can be given that the iNAV will be published continuously or that it will be up to date or free from error. To the extent permitted by law, neither the Responsible Entity nor its appointed agent shall be liable to any person who relies on the iNAV.

The price at which units trade on the Securities Exchange may not reflect either the NAV per Unit or the iNAV. See "Securities Exchange liquidity" in Section 4 for more details.

Investing in the Fund

Investors can enter the Fund either by applying for units directly with the Responsible Entity using an Application Form or, once the units are quoted on the Securities Exchange, by buying units on the Securities Exchange.

Investors can exit the Fund either by directly making a withdrawal request to the Responsible Entity using a Withdrawal Form or by selling units on the Securities Exchange. You need to hold your units on the issuer sponsored sub-register to make a withdrawal request directly to the Responsible Entity. Your stockbroker can assist you with this process if you hold your units on a HIN.

The method by which you enter the Fund does not affect the method by which you can exit the Fund. If you enter the Fund by buying units on the Securities Exchange, you can exit the Fund by selling units on the Securities Exchange or by withdrawing directly with the Responsible Entity. If you enter the Fund by applying for units directly with the Responsible Entity you can exit the Fund by selling units on the Securities Exchange or by withdrawing directly with the Responsible Entity.

The following table sets out the key differences between entering and exiting the Fund via the Securities Exchange or by applying for and withdrawing units directly from the Fund. This is a summary only. This PDS should be read in full before making any decision to invest in the Fund. For more information on buying and selling units on the Securities Exchange, see Section 4. For more information on applying to and withdrawing directly from the Fund, see Section 5.

Restrictions on withdrawals

No withdrawals or switches or payment of withdrawal proceeds shall be permitted where the calculation of the NAV of the Fund or withdrawals are suspended. Withdrawals or switches may be suspended for up to 28 days including where:

- it is impracticable for us, or we are unable, to calculate the NAV of the Fund, for example, because of financial market disruptions or closures;
- the payment of withdrawal proceeds involves realising a significant portion of the Fund's assets which would, in our opinion, result in remaining investors bearing a disproportionate amount of capital gains tax or expenses, or suffering any other disadvantage or diminution of the value of units held;
- we reasonably consider it would be in the interests of investors, or it is otherwise permitted by law; or
- where we receive withdrawal requests of an aggregate value that in our reasonable estimate exceeds 5% of the Fund's assets.

The withdrawal process, including the calculation of the NAV per Unit, applies only when the Fund is 'liquid' (within the meaning given to that term in the Corporations Act). Where the Fund ceases to be liquid, units may only be withdrawn pursuant to a withdrawal offer made to all investors in the Fund in accordance with the Constitution and the Corporations Act. We are not obliged to make such offers.

Where withdrawals or switches have been suspended, units in the Fund may continue trading on the Securities Exchange provided that the Fund continues to comply with the Securities Exchange Rules. If the Fund ceases to comply with the Securities Exchange Rules, the Securities Exchange Operator may suspend trading of units in the Fund on the Securities Exchange.

Compulsory redemptions

The Responsible Entity may redeem some or all of an investor's units without asking them in accordance with the Constitution or as permitted by law. As an example, this may occur where an investor breaches their obligations to the Responsible Entity (for example, where the Responsible Entity believes that the units are held in breach of prohibitions contained within the Constitution) or where the Responsible Entity believes that the units are held in circumstances which might result in a violation of an applicable law or regulation.

Transfer and conversion of units

Your stockbroker will initiate the conversion or transfer of units in the following scenarios:

- You hold units directly with the Fund (SRN holding on the issuer sponsored sub-register) and wish to convert or transfer your units to an account with a stockbroker (HIN holding on the CHESS sub-register). You will need to provide your stockbroker with your SRN. You can only convert or transfer whole units and any partial unit holding remaining after the conversion or transfer will be cancelled and become property of the Fund.
- You hold units in an account with your stockbroker (HIN holding on the CHESS sub-register) and wish to transfer your units to another HIN or to transfer or convert your units to an account directly with the Fund (SRN holding on the issuer sponsored sub-register).

The Unit Registry handles transfers of units for investors who hold units directly with the Fund (SRN holding on the issuer sponsored sub-register) and wish to transfer to another existing account or a new account directly with the Fund. We require original copies of standard transfer forms to be mailed to us. We are unable to process transfer forms that are faxed, emailed or photocopied.

Distributions

The Responsible Entity intends that the Fund will make distributions on a semi-annual basis. The Fund may make distributions more or less frequently at the discretion of the Responsible Entity. The distribution may comprise an amount attributed to you from income (such as dividends received from shares and interest) less expenses incurred by the Fund (such as Management Costs) plus net capital gains made on the sale of shares or other investments held. In some circumstances, the Fund may distribute a payment out of the capital invested in addition to a distribution of net income or net capital gains, or where the Fund has not generated any net income or net capital gains during the income year.

To be eligible to receive a distribution in respect of a unit for a distribution period, you must:

- hold that unit on the last day of the distribution period; or
- have purchased (either on-market or off-market) that unit on or before the last day of the distribution period; or
- have applied directly with the Responsible Entity using an Application Form for that unit on or before the last day of the distribution period.

You will not be eligible to receive a distribution in respect of a distribution period on a unit you have sold or redeemed on or before the last day of the distribution period.

Under the AMIT rules, investors will be assessed for tax on the income of the Fund attributed to them. The Constitution permits the Responsible Entity to reinvest part or all of your distribution and/or accumulate part or all of the Fund's income in the Fund, in which case, under the AMIT rules, the income of the Fund that is attributed to you (and which must be included in your income tax return) will be more than the cash distribution paid and the tax cost base of your units will increase by the amount that the income of the Fund attributed to you exceeds the cash distribution paid. For more details, see the Taxation overview in Section 11.

The Responsible Entity may, in a particular year:

- Require distributions of the income of the Fund to be reinvested as additional units in the Fund in accordance with the Distribution Reinvestment Plan ("DRP") Rules. The Responsible Entity will provide a notification on the Fund's website where it has elected to require part or all of the distribution to be reinvested as additional units in the Fund. The Constitution provides that all unitholders are bound by the DRP Rules; or
- Retain or accumulate part or all of the income of the Fund. The tax cost base of Units will increase to the extent that the income of the Fund attributed to investors exceeds the cash distribution paid (and will decrease to the extent that the income of the Fund attributed to investors is less than the cash distribution paid).

We will send you a tax statement after the end of each financial year detailing the amounts attributed to you to assist in the preparation of your tax return.

You can choose to have your distributions directly credited to your Australian or New Zealand bank account or, to the extent that the Responsible Entity offers a DRP, automatically reinvested as additional units in the Fund. No fees or transaction costs will be payable in respect of distributions that are automatically reinvested. The DRP Rules require that additional units issued to investors who hold their units with a stockbroker (HIN holding on the CHESS sub-register) will be rounded to the nearest whole number and investors who hold their units directly with the Fund (SRN holding on the issuer-sponsored sub-register) will be issued partial units. If you have provided a New Zealand bank account, the conversion of your Australian dollar distribution to New Zealand dollars will be processed by the Fund's bank at the exchange rate prevailing at the processing time. Please be aware that distributions will be paid to you in cash unless you instruct us otherwise.

Should we offer a DRP in respect of the Fund, information will be made available on the Fund's website.

Details in relation to each distribution will be published on the announcements platform of the Securities Exchange Operator and the Fund's website at www.airlifundsmgmt.com.au. The distribution policy of the Fund is current as at the date of this PDS and may be subject to change from time to time.

4. Buying and selling units on the Securities Exchange

Buying units on the Securities Exchange

Once the units are quoted on the Securities Exchange, investors can invest in the Fund by purchasing units via their stockbroker. Investors do not need to complete an Application Form and they will settle the purchase of their units in the same way they would settle purchases of listed securities via the CHESSE settlement service.

There is no minimum number of units applicable to investors who buy units on the Securities Exchange. An investor's entry price into the Fund will be the price at which they have purchased units on the Securities Exchange.

Investors do not have cooling-off rights in respect of units in the Fund (regardless of whether they were purchased on the Securities Exchange or applied for directly with the Responsible Entity).

Selling your units on the Securities Exchange

Once units are quoted on the Securities Exchange, investors can sell their units in the Fund via their stockbroker. Investors who sell units on the Securities Exchange do not need to complete a Withdrawal Form and they will receive the proceeds from the sale of their units in the same way they would receive proceeds from the sale of listed securities via the CHESSE settlement service.

There is no minimum number of units that investors can sell on the Securities Exchange. An investor's exit price will be the price at which they have sold units on the Securities Exchange. Investors can only sell whole units on the Securities Exchange and any residual partial unit holdings will be cancelled and the property attributable to the partial unit will become the property of the Fund.

Securities Exchange liquidity

Investors can buy units from and sell units on the Securities Exchange to other investors in the secondary market in the same way as for any other listed securities.

The Responsible Entity, on behalf of the Fund, may provide liquidity to investors on the Securities Exchange by acting as a buyer and seller of units. At the end of each Trading Day, the Responsible Entity will create or cancel units by applying for or redeeming its net position in units bought or sold on the Securities Exchange. The Responsible Entity's appointed agent will act on behalf of the Responsible Entity to transact and facilitate settlement on its behalf.

The price at which the Responsible Entity may buy or sell units will reflect the Responsible Entity's view of NAV per Unit (as referenced by the iNAV), market conditions, an allowance to cover transaction costs and supply and demand for units during the Trading Day. The Fund will bear the risk of any transactions undertaken by the Responsible Entity on the Fund's behalf on the Securities Exchange, which may result in either a cost or a benefit to the Fund. The risks of providing liquidity on the Securities Exchange are explained in Section 7.

5. Applying for and withdrawing units directly with the Responsible Entity

Applying directly to the Fund

You can make an investment in the Fund by sending a correctly completed Application Form together with the required supporting identification documentation to our Unit Registry. The entry price for an investor who applies directly to the Responsible Entity for units in the Fund will be the NAV per Unit plus an allowance for transaction costs incurred by the Fund. The minimum initial investment is \$10,000. Additional investments can be made into an existing account at any time. No minimum amount applies to additional investments made by BPAY®. The minimum amount for an additional investment made using electronic funds transfer ("EFT") or cheque is \$5,000.

We may accept initial and additional investment applications for smaller amounts at our discretion. The processing of applications for lower amounts may be delayed while approval is sought for the lower application amount. We may also reject applications at our discretion.

If you invest into the Fund indirectly through an Investor Directed Portfolio Service ("IDPS") or IDPS-like scheme (commonly referred to as a master trust or wrap account), the minimum investment amount will be determined by the operator of the master trust or wrap account and may be higher or lower than if you invest in the Fund directly.

How we process transactions

We will process your application and issue units to you when we have received:

- your completed Application Form or Additional Application Form, including any required identification documentation; and
- your cleared application monies into the Fund's application bank account.

If we receive your correctly completed Application Form by 2.00pm (Sydney time) on a Business Day and your cleared funds by close of business on the same Business Day, you will receive the entry unit price applicable to that Business Day. We will generally issue units to you the following Business Day. Otherwise we will issue units to you using the entry unit price applicable to the Business Day on which we receive your completed documentation and cleared monies, subject to the applicable cut-off times.

If you invest by cheque or request us to process a direct debit (available for initial applications only), it may take up to three Business Days (in the case of a cheque) and up to four Business Days (in the case of a direct debit) for your application monies to clear from the date we bank the cheque or issue a direct debit request to your bank. If we receive your cheque or direct debit request before 2.00pm (Sydney time) on a Business Day we will action these on the day we receive them. If they are received after 2.00pm (Sydney time) on a Business Day we will action them the following Business Day. We will not issue units until your application monies have cleared.

For applications made by BPAY® (available for additional applications only), we will not issue units until we receive the money from your nominated financial institution. This generally means there will be a delay between the day you initiate a BPAY® transaction and the day the units are issued. You will need to quote the Fund's Biller Code 287607 and your unique reference number. Refer to your last transaction confirmation or contact the Unit Registry to obtain your unique reference number.

If your cheque, direct debit, BPAY® or EFT is dishonoured by your financial institution, we will not process your application. We will not re-present a dishonoured payment unless you first contact us to discuss your application. We may deduct any fees incurred as a result of the dishonoured payment from your application amount before we issue you with units.

® Registered to BPAY Pty Ltd ABN 69 079 137 518

Completing the Application Form

The Application Form is available from www.airlifundmanagement.com.au.

The Application Form includes details of the identification documentation that we are required by law to collect from you before we can issue units in the Fund to you.

Please mail the completed original of the Application Form, together with certified copies of the requested identification documentation, to our Unit Registry. The Unit Registry's postal address appears on the front of this PDS and on the Application Form.

Please note that legislative requirements mean that we may not be able to accept an Application Form for an initial investment by fax or email. However, we may accept applications by other electronic means.

Additional investments

If you hold units directly with the Fund, you can follow these steps to add to your existing investment using BPAY® without the need to complete any forms. BPAY® provides you with the flexibility to make regular recurring additional investments at the frequency and amount of your choosing. There is no minimum investment amount for additional investments made using BPAY®.

- Using your bank account's BPAY® function, nominate Airlie Australian Share Fund as a Biller. The Biller Code is 287607
- Enter your unique customer reference number ("CRN") that can be found in your last transaction confirmation. Please note that this is different from your investor number or SRN. Please contact the Unit Registry if you require confirmation of your CRN. We will use the CRN to allocate the additional investment to your account.
- Enter the amount of your additional investment. Note that your financial institution will generally allow a recurring BPAY® payment to be set up if you would like to make regular additional investments.
- Save a copy of your BPAY® payment receipt as proof of payment. The Unit Registry will send you a transaction confirmation once units have been issued to you.

Please note that even though your BPAY® transaction is processed from your bank account immediately, your funds may take some time to be transferred to the Fund from your financial institution. Units will be issued only when we receive your funds and will be issued at the entry unit price applicable to the day payment is received.

For additional investments made by EFT or cheque, a minimum investment amount of \$5,000 applies. You will need to notify our Unit Registry by email, fax or mail using the Additional Application Form or otherwise in writing indicating:

- your account name;
- your account/investor number or SRN;
- the name of the Fund into which you are making an additional investment;
- the amount of additional monies you are investing; and
- the method of payment.

If you purchased your units on the Securities Exchange you will be required to supply certain identification documentation to our Unit Registry before you can make additional investments.

Payment of your application monies

We can accept payment of your application monies in Australian Dollars by cheque, Direct Debit (initial applications only), BPAY® (additional applications only) or EFT.

Instructions for making additional investments using BPAY® are set out in the above section entitled "Additional investments".

If you wish to pay by cheque, please make your cheque payable to Magellan Asset Management Limited ATF Airlie Australian Share Fund, and mail the cheque with your Application Form.

EFT payments can be made directly to the Fund's application bank account. The Fund's bank account details are as follows:

Withdrawing directly from the Fund

If you hold your units on the Fund's issuer sponsored sub-register then, subject to the Constitution, the Corporations Act and the Securities Exchange Rules, you can apply directly to the Responsible Entity to withdraw some or all of your investment at any time. No minimums apply to withdrawal requests and there is no minimum account balance. To withdraw some or all of your investment, please send a correctly completed Withdrawal Form to our Unit Registry. You can request a specified dollar amount to be withdrawn, a specified number of units to be withdrawn, or a full redemption of your investment in the Fund. The exit price for an investor who withdraws directly from the Fund will be the NAV per Unit less an allowance for transaction costs incurred by the Fund.

On the Withdrawal Form you will be required to provide your Securityholder Reference Number ("SRN") or your investor number.

If you hold your units via a stockbroker (and your units are associated with a Holder Identification Number ("HIN")), then you hold your units on the CHESS sponsored sub-register. If you want to withdraw directly from the Fund, you will first need to submit a request

to your stockbroker to have your units converted to an issuer-sponsored holding so that an SRN can be allocated to you by the Unit Registry. The process of converting your broker-sponsored holding to an issuer-sponsored holding is managed by your stockbroker and is subject to their standard processing times. Please contact your stockbroker for further information.

We will accept withdrawal requests via fax, email or mail, except if you are required to provide identification documentation in connection with your Withdrawal Form, in which case we will only accept your request via mail. If you purchased your units on the Securities Exchange, you will be required to supply certain identification documentation as part of your correctly completed Withdrawal Form. All instructions to withdraw should be signed by the nominated authorised signatory or signatories. Under some circumstances, we may need to contact you to request further documentation to confirm the validity of your instruction. This may delay processing of the withdrawal request.

If we receive your correctly completed Withdrawal Form before 2.00pm (Sydney time) on a Business Day on which your units are held on the Fund's issuer-sponsored sub-register, we will calculate the amount of your withdrawal using the exit price applicable to that Business Day. If we receive your withdrawal request after 2.00pm on a Business Day on which your units are held on the Fund's issuer-sponsored sub-register, we will use the following Business Day's exit price.

Under the Constitution, the Responsible Entity may set a minimum withdrawal amount and minimum account balance. If a minimum account balance applies and your withdrawal request results in your remaining investment in the Fund held on the issuer sponsored sub-register falling below the minimum account balance, we may require you to withdraw your entire balance held on the issuer-sponsored sub-register. As at the date of this PDS the Responsible Entity has determined that there is no minimum number of units applicable to either the sale of units on the Securities Exchange or withdrawal of units directly with the Responsible Entity. Additionally, no minimum balance applies to investments in the Fund.

Payment of your redemption proceeds

You can usually expect to receive payment into your nominated bank account within seven Business Days after our receipt and acceptance of your withdrawal request. However, during July of each year, or at any other time when the Fund is processing a distribution, payment of your withdrawal may be delayed by up to 15 Business Days. There may be other circumstances, such as a freeze on withdrawals or where the Fund is not liquid (as defined under the Corporations Act), where your ability to withdraw from the Fund is restricted and you may have to wait a period of time before you can withdraw some or all of your investment.

We can only pay redemption proceeds to an Australian or New Zealand bank account held in the name of the investor. We are unable to pay redemption proceeds to a third party bank account. Normally we will pay redemption proceeds to the bank account you nominated on your Application Form when you opened your investment, or if you purchased your units on the Securities Exchange and submit a withdrawal request to the Responsible Entity, the bank account nominated on your Withdrawal Form, or if you have subsequently written to us to change your nominated account, we will pay proceeds to that account. For redemption proceeds paid to New Zealand bank accounts, the conversion of your Australian dollar proceeds to New Zealand dollars will be processed by the Fund's bank at the exchange rate prevailing at the processing time.

We will send you a confirmation of your redemption once it has been processed and paid.

Switches

If you hold units directly with the Fund you are able to switch all or part of your investment to another fund managed by Magellan. A switch is a withdrawal from one Magellan fund and an application into another. If we receive your switch instruction before 2.00pm (Sydney time) on a Business Day, we will usually process the switch using the entry and exit prices applicable to that Business Day. If we receive your request after 2.00pm, we will usually process it using the following Business Day's unit prices. In circumstances where the calculation of unit prices is delayed for any reason, including while we are determining and processing distributions, we have the discretion to defer the processing of switches until unit pricing has resumed. We will accept switch requests via fax, email or mail. Instructions to switch should be signed by the nominated authorised signatory or signatories. Under some circumstances, we may need to contact you to request further documentation to confirm the validity of your instruction. This may delay processing of the switch request. We are unable to process switches out of a Fund whilst restrictions on withdrawals apply. If you hold units in the Fund via a stockbroker, you will need to submit a request to your stockbroker to have your units converted to an issuer-sponsored holding before you can make a switch request.

Indirect Investors

We authorise the use of this PDS as disclosure to persons who wish to access the Fund indirectly through an IDPS or IDPS-like scheme (commonly referred to as a master trust or wrap account). These investors are referred to as "Indirect Investors".

Indirect Investors do not become registered investors in the Fund, nor do they acquire the rights of a registered investor. Instead, as the master trust or wrap account operator is investing on your behalf, it acquires the rights of investors. In most cases, references to 'you' or 'your' in the PDS (for example, receiving distribution income, reinvestment distribution income and redemptions) is a reference to the master trust or wrap account operator and accordingly their arrangements with you will set out your rights. We do not keep personal information about Indirect Investors.

Further, some provisions of the Fund's Constitution will not be relevant to you. For example, you will generally not be able to attend meetings, or withdraw investments directly. You will receive reports from the master trust or wrap account operator, not us. The master trust or wrap account operator can exercise (or decline to exercise) those rights in accordance with the arrangements governing the operation of the master trust or wrap account.

Enquiries about the Fund should be directed to your licensed financial adviser, master trust or wrap account operator.

6. Benefits of investing in the Fund

Significant features

The Fund's primary investment objective is to provide long-term capital growth and regular income through investment in Australian equities.

The Fund offers investors the opportunity to invest in a specialised and focused Australian equities fund. The Investment Manager's broad investment philosophy is to build portfolios using a bottom up investment approach with a belief that active management can produce significant wealth accumulation relative to passive management. The Investment Manager assesses companies in the investment universe on four key criteria: financial strength, quality of the management team, quality of the business and valuation. The Fund's portfolio will generally comprise 15 to 35 securities.

The Fund may use exchange traded derivatives, in a limited manner, for risk management purposes.

Significant benefits

Investing in the Fund offers investors a range of benefits, including:

- access to the Investment Manager's investment expertise and a professionally managed Australian equities portfolio;
- access to a concentrated portfolio of attractive Australian listed companies; and
- participation in any capital appreciation and income distributions of the Fund.

7. Risks of investing in the Fund

All investments carry risk. The likely investment return and the risk of losing money is different for each investment strategy as different strategies carry different levels of risk depending on the underlying mix of assets that make up each fund. Those assets with potentially the highest long-term return (such as equities) may also have the highest risk of losing money in the shorter term.

Risks can be managed but not completely eliminated. It is important that investors in the Fund understand that:

- the value of an investor's investment may rise and fall;
- investment returns will vary and future returns may differ from past returns;
- returns are not guaranteed and there is a risk that investors may lose money on any investment they make; and
- laws affecting an investor's investment in a managed investment scheme may change over time.

The appropriate level of risk for each investor will depend on various factors and may include their age, investment timeframe, where other parts of their wealth are invested and their overall tolerance to risk. Investors should consult their stockbroker or licensed financial adviser to better understand the risks involved in investing in the Fund.

The significant risks for the Fund are:

Company specific risk: Investments by the Fund in a company's securities will be subject to many of the risks to which that particular company is itself exposed. These risks may impact the value of the securities of that company. These risks include factors such as changes in management, actions of competitors and regulators, changes in technology and market trends.

Concentration risk: As the Fund will hold a concentrated portfolio of generally between 15 and 35 securities, returns of the Fund may be dependent upon the performance of individual companies. The concentrated exposure may lead to increased volatility in the Fund's NAV per Unit and increased risk of poor performance.

Conflicts of interest risk: Either we or our various service providers may from time to time act as issuer, investment manager, secondary market liquidity provider, custodian, unit registry, broker, administrator, distributor or dealer to other parties or funds that have similar objectives to those of the Fund. It is possible that we, or our service providers may have potential conflicts of interest with the Fund. Such conflicts of interest include but are not limited to: management of multiple accounts with varying fee arrangements, trade allocation, proxy voting and staff personal trading. The Investment Manager may invest in, directly or indirectly, or manage or advise other funds which invest in assets which may also be purchased by the Fund. Neither the Investment Manager nor any of its affiliates nor any person connected with it are under any obligation to offer investment opportunities to the Fund.

The Responsible Entity, on behalf of the Fund, acts as a buyer and seller of units on the Securities Exchange. A conflict might arise between the Fund and investors buying or selling units from the Fund on the Securities Exchange due to the Fund's desire to benefit from such trading activities. A conflict might also arise due to the fact that the Responsible Entity could use such trading activities to influence the perception of the performance of the Fund or discourage selling of units as this could reduce the management fee payable to the Responsible Entity.

We maintain a Conflicts of Interest Policy to ensure that we manage our obligations to the Fund such that all conflicts (if any) are resolved fairly.

Counterparty risk: There is a risk that the Fund may incur a loss arising from the failure of another party to a contract (the counterparty) to meet its obligations. Counterparty risk arises primarily from investments in cash and derivatives transactions. Substantial losses can be incurred if a counterparty fails to deliver on its contractual obligations.

Derivatives risk: The value of a derivative is derived from the value of an underlying asset and can be highly volatile. Changes in the value of derivatives may occur due to a range of factors that include rises or falls in the value of the derivative in line with movements in the value of the underlying asset, potential liquidity of the derivative and counterparty credit risk.

Distribution policy risk: Under the distribution policy for the Fund, there may be circumstances where the distributions received by investors in cash may be insufficient to cover the tax payable on the income of the Fund attributable to the investor.

Fund provision of liquidity on the Securities Exchange risk: The Responsible Entity, on behalf of the Fund, may provide liquidity to investors on the Securities Exchange by acting as a buyer and seller of units in the Fund. The Responsible Entity has appointed an agent to transact and facilitate the settlement of such transactions on the Fund's behalf. The Fund will bear the risk of these transactions. There is a risk that the Fund could suffer a material cost as a result of the Fund providing liquidity to investors on the Securities Exchange which may adversely affect the NAV of the Fund. Such a cost could be caused by either an error in the execution and settlement of transactions or in the price at which units are transacted on the Securities Exchange. There is a risk that, if the agent appointed by the Responsible Entity does not fulfil its obligations in a correct and timely manner, the Fund could suffer a loss.

In order to manage these risks, the Responsible Entity has the right to cease transacting on the Securities Exchange, subject to its obligations under the Securities Exchange Rules, may change the prices at which it transacts on the Securities Exchange and may, where the Responsible Entity considers it appropriate to do so, hedge the Fund's trading activities.

Fund risk: Fund risk refers to specific risks associated with the Fund, such as termination and changes to fees and expenses. The performance of the Fund or the security of an investor's capital is not guaranteed. There is no guarantee that the investment strategy of the Fund will be managed successfully, or that the Fund will meet its investment objectives. Failure to do so could negatively impact the performance of the Fund. An investment in the Fund is governed by the terms of the Constitution and this PDS, each as amended from time to time. The Fund is also governed by the Securities Exchange Rules, and is exposed to risks of quotation on that platform, including such things as the platform or settlements process being delayed or failing. The Securities Exchange may suspend, or remove the units from quotation on the Securities Exchange. The Responsible Entity may elect, in accordance with the Constitution and the Corporations Act, to terminate the Fund for any reason.

iNAV risk: The iNAV published by the Fund is indicative only and might not be up to date or might not accurately reflect the underlying value of the Fund.

Liquidity of investments risk: Whilst the Fund is exposed to listed entities which are generally considered to be liquid investments, under extreme market conditions, there is a risk that such investments cannot be readily converted into cash or at an appropriate price. In such circumstances, the Fund may be unable to liquidate sufficient assets to meet its obligations, including payment of withdrawals, within required timeframes or it may be required to sell assets at a substantial loss in order to do so.

Market risk: There is a risk that the market price of the Fund's assets will fluctuate. This may be as a result of factors such as economic conditions, government regulations, market sentiment, local and international political events, pandemic outbreaks, environmental and technological issues.

Operational risk: Operational risk includes those risks which arise from carrying on a funds management business. The operation of the Fund may require us, the Custodian, Unit Registry, administrator, the agent appointed by the Responsible Entity to provide liquidity to investors on the Securities Exchange, and other service providers to implement sophisticated systems and procedures. Some of these systems and procedures are specific to the operation of the Fund. Inadequacies with these systems and procedures or the people operating them could lead to a problem with the Fund's operation and result in a decrease in the value of units.

Performance risk: There is a risk that the Fund may not achieve its investment objectives.

Personnel risk: The skill and performance of the Investment Manager can have a significant impact (both directly and indirectly) on the investment returns of the Fund. Changes in key personnel and resources of the Investment Manager may also have a material impact on investment returns on the Fund.

Pooled investment scheme risk: The market prices at which the Fund is able to invest inflows, or sell assets to fulfil outflows, may differ from the prices used to calculate the NAV per Unit (and the iNAV). Investors in the Fund may therefore be impacted by other investors entering and exiting the Fund. The impact will depend on the size of inflows or outflows relative to the Fund, and on the price volatility of the securities in which the Fund invests. Inflows and outflows may also affect the taxable income attributed to an investor during a financial year.

Price of units on the Securities Exchange: The price at which the units may trade on the Securities Exchange may differ materially from the NAV per Unit and the iNAV.

Regulatory risk: There is a risk that a change in laws and regulations governing a security, sector or financial market could have an adverse impact on the Fund or on the Fund's investments. A change in laws or regulations can increase the costs of operating a business and/or change the competitive landscape.

Securities Exchange liquidity risk: The liquidity of trading in the units on the Securities Exchange may be limited. This may affect an investor's ability to buy or sell units on the Securities Exchange. Investors will not be able to buy or sell units on the Securities Exchange during any period that the Securities Exchange Operator suspends trading of units in the Fund. Further, where trading in the units on the Securities Exchange has been suspended, the ability of investors to apply directly to the Responsible Entity to withdraw their investment in the Fund may be suspended and will be subject to the provisions of the Constitution and the Corporations Act.

The Fund may be removed from quotation by the Securities Exchange Operator or terminated: The Securities Exchange Rules impose certain requirements for the continued quotation of securities, such as the units, on the Securities Exchange. Investors cannot be assured that the Fund will continue to meet the requirements necessary to maintain quotation on the Securities Exchange. In addition, the Securities Exchange Operator may change the quotation requirements.

The Responsible Entity may elect, in accordance with the Constitution and Corporations Act, to terminate the Fund for any reason including if units cease to be quoted on the Securities Exchange. Information about the Securities Exchange Rules applicable to quotation of units in the Fund on the Securities Exchange is set out in Section 10 of this PDS.

8. The investment objective and strategy

An investment in the Fund may suit investors who are seeking a medium to long-term investment exposure to Australian equities. Before deciding whether to invest in the Fund, investors should consider:

- the likely investment return of the Fund;
- the risk involved in investing in the Fund; and
- their investment timeframe.

Investment objective	The Fund's primary investment objective is to provide long-term capital growth and regular income through investment in Australian equities.						
Minimum suggested time frame for holding investment	3 to 5 years						
Asset classes and asset allocation ranges	The Fund's assets are typically invested within the following asset allocation ranges: <table border="1"><thead><tr><th>Asset Class</th><th>Investment Range</th></tr></thead><tbody><tr><td>Australian listed securities</td><td>90% - 100%</td></tr><tr><td>Cash and cash equivalents</td><td>0% - 10%</td></tr></tbody></table>	Asset Class	Investment Range	Australian listed securities	90% - 100%	Cash and cash equivalents	0% - 10%
Asset Class	Investment Range						
Australian listed securities	90% - 100%						
Cash and cash equivalents	0% - 10%						
Investments held	The Fund primarily invests in the securities of Australian listed companies but will also have some exposure to cash and cash equivalents. The Fund may also use exchange traded derivatives, in a limited manner, for risk management purposes.						
Risk level¹	Medium to high.						
Fund performance	For up-to-date information on the performance of the Fund, including daily NAV per Unit, iNAV and performance history, please visit www.airlifundmanagement.com.au .						

¹ The risk level is not a complete assessment of all forms of investment risks. For instance, it does not detail what the size of a negative return could be or the potential for a positive return to be less than the return an investor may expect to meet their objectives.

Derivatives and other investments

The Fund may use derivatives in limited circumstances. The Fund may use exchange traded derivatives on a temporary basis to gain exposure to the underlying reference assets of those derivatives.

The Fund does not intend to engage in short selling or enter securities lending arrangements.

Borrowing restrictions

The Fund may borrow against all or part of its investment portfolio, provided that, at the time any new borrowing is entered into, the aggregate of those new borrowings and any pre-existing borrowings does not exceed 5% of the Fund's gross asset value.

Changes to the Fund

The Responsible Entity has the right to close or terminate the Fund and change the Fund's investment return objective, asset classes and asset allocation ranges, currency strategy (if any) and distribution policy, without prior notice in some cases. The Responsible Entity will inform investors of any material changes to the Fund's details in its next regular communication or as otherwise required by law.

Labour standards and environmental, social or ethical considerations

The Investment Manager believes that issues relating to labour standards and to environmental, social and ethical considerations have the potential to affect the business outcomes of the Fund's investment companies. Accordingly, the Investment Manager considers labour standards and environmental, social and ethical considerations of companies as part of its investment process.

9. Fees and other costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities & Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This document shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the Fund.

Taxes are set out in another part of this document.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Type of fee or cost	Amount	How and when paid
Fees when your money moves in or out of the Fund		
Establishment fee The fee to open your investment	Nil	Not applicable
Contribution fee The fee on each amount contributed to your investment	Nil	Not applicable
Withdrawal fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit fee The fee to close your investment	Nil	Not applicable
Management Costs[^] - the fees and costs for managing your investment		
Management fee	0.78% per annum*	The management fee is calculated daily based on the value of the Fund on that Business Day. An estimate is accrued daily in the NAV per Unit and the fee is payable monthly in arrears from the assets of the Fund.
Service fees		
Switching fee The fee for changing investment options	Nil	Not applicable

[^]These fees may be individually negotiated if you are a wholesale client (as defined in the Corporations Act).

*Inclusive of the estimated net effect of Goods and Services Tax ("GST") (i.e. inclusive of GST, less any reduced input tax credits). For more information about GST, see 'Management fees' under the heading 'Additional Explanation of Fees and Costs'.

Warning: Your licensed financial adviser may also charge you fees for the services they provide. These should be set out in the Statement of Advice given to you by your adviser.

Example of annual fees and costs

This table gives an example of how the fees and costs for this product can affect an investment over a one year period. You should use this table to compare this product with other managed investment products.

Example ¹	Balance of \$50,000 with a contribution of \$5,000 during year ²	
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management Costs	0.78% ³ p.a.	And , for every \$50,000 you have in the Fund you will be charged \$390 each year.
EQUALS Cost of the Fund	0.78% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of: \$390 ⁴ . What it costs you will depend on the fund you choose and the fees you negotiate.

¹ This is an example only and does not take into account any movements in the value of an investor's units that may occur over the course of the year or any abnormal costs.

² This example assumes the \$5,000 contribution occurs at the end of the first year. Management costs are calculated using the \$50,000 balance only.

³ This management cost amount is inclusive of the estimated net effect of GST (i.e. inclusive of GST, less any reduced input tax credits). Please see the 'Additional Explanation of Fees and Costs' section below for more details.

⁴ Please note that this example does not capture all the fees and costs that may apply to you, such as transactional and operational costs.

Additional Explanation of Fees and Costs

Management fees

The Fund pays a management fee of 0.78% per annum of the Fund's Net Asset Value ("NAV") (before fees) to the Responsible Entity for managing the assets of the Fund and overseeing the operations of the Fund.

The management fees help to cover all ordinary fees, costs, charges, expenses and outgoings that are incurred in connection with the Fund (such as administration and accounting costs, registry fees, audit and tax fees, and investor reporting expenses).

Management fees are calculated each Business Day based on the NAV (before fees) of the Fund at the end of each Business Day and are payable at the end of each month. Estimated management costs are reflected in the NAV per Unit of the Fund.

Under the Fund's constitution, the Responsible Entity is entitled to receive maximum management fees of 1.00% per annum (before fees) excluding GST. The management fees stated in this PDS are inclusive of the estimated net effect of GST (i.e. inclusive of GST, less any reduced input tax credits). To the extent the GST impact changes, the actual management fees may vary from the rates stated above.

In addition to the management fee, where the Fund incurs extraordinary expenses and outgoings, the Responsible Entity may pay for these from the Fund's assets. We may pay extraordinary expenses and outgoings from the Fund's assets because, under the Constitution of the Fund, in addition to the management fee, the Responsible Entity is entitled to be indemnified from the assets of the Fund for any liability properly incurred by us in performing properly any of our duties or exercising any of our powers in relation to the Fund or attempting to do so.

Total transactional and operational costs

Transactional and operational costs such as brokerage and transactional taxes are incurred by the Fund when the Fund acquires and disposes of securities.

An estimate of transactional and operational costs for the Fund is provided in the table below. These estimated costs are based on the actual transactional and operational costs incurred by the Fund for the year ended 30 June 2019.

Total transactional and operational costs (% p.a.)	Recovery through buy/sell spread ¹ (% p.a.)	Net transactional and operational costs (% p.a.)	For every \$50,000 you have in the Fund you will likely incur approximately:
0.53%	0.11%	0.42%	\$210

¹ Recovery through the buy/sell spread only includes amounts recovered from investors applying and withdrawing directly from the Fund. It does not include any amount the Responsible Entity intends to recover from the prices at which it buys and sells units on the Securities Exchange. For more information, see "Buy and sell spreads".

The amount of such costs will vary from year to year depending on the volume and value of the trading activity in the Fund, and the value of applications and withdrawals processed.

Transactional and operational costs are paid out of the assets of the Fund and are not paid to the Responsible Entity.

Buy and sell spreads

A portion of the total transactional and operational costs are recovered from investors applying to and withdrawing directly from the Fund. New investments into the Fund or withdrawals from the Fund will typically cause the Fund to incur transaction costs. So that existing investors do not bear the transaction costs that arise from these investments and withdrawals from the Fund, the Responsible Entity intends to include an allowance to cover these costs in the prices at which it issues and redeems units to investors who transact directly with the Responsible Entity. This allowance to cover transaction costs (sometimes called the 'buy spread' and the 'sell spread') represents an additional cost to investors applying and withdrawing directly from the Fund, but are not fees paid to the Responsible Entity.

For an investor applying for units directly with the Responsible Entity, the current buy spread is 0.14% of the NAV per Unit, represented by the difference between the entry price and the NAV per Unit. For an investor applying directly to the Responsible Entity to withdraw their investment in Fund, the current sell spread is 0.14% of the amount that you withdraw, represented as the difference between the exit price and the NAV per Unit. For example, if you invested \$50,000 in the Fund the cost of the buy spread would be \$70, or if you withdrew \$50,000 from your investment the cost of the sell spread would be \$70. We may vary the buy and sell spreads from time to time and prior notice will not ordinarily be provided. Updated information on the buy and sell spreads will be posted on the Fund's website at www.airlifundmanagement.com.au.

For an investor that buys or sells units on the Securities Exchange, the price at which they transact may vary from the prevailing iNAV. The prices on the Securities Exchange are determined in the secondary market by market participants who set their own prices at which they wish to buy or sell units in the Fund. The difference, or spread, from the prevailing iNAV may represent a cost, or possible benefit, of an investment in the Fund. Where the Responsible Entity buys or sells units on the Securities Exchange, the price at which it buys or sells units will generally include an allowance to cover transaction costs but will also reflect market conditions and supply and demand for units during the Trading Day. As such, the cost of the spread on the Securities Exchange may be different to the cost of the 'buy spread' or 'sell spread' for investors who apply or withdraw directly with the Responsible Entity. Where the Responsible Entity buys or sells units the Fund retains the benefit of this spread.

Stockbroker fees for investors

Investors will incur customary brokerage fees and commissions when buying and selling the units on the Securities Exchange. Investors should consult their stockbroker for more information in relation to their fees and charges.

Fees for Indirect Investors

For investors accessing the Fund through a master trust or wrap account, additional fees and costs may apply. These fees and costs are stated in the offer document provided by your master trust or wrap account operator. These are not fees paid to the Responsible Entity.

Payments to platforms

Some master trusts, wrap accounts or other investment administration services (“**Platforms**”) charge product access payments fees (as a flat dollar amount each year) for having the Fund included on their investment menus. We may, therefore, pay amounts from the fees we receive to any Platform through which the Fund is made available. As these amounts are paid by us out of our own resources, they are not an additional cost to you.

Financial adviser fees

Your licensed financial adviser may also charge you fees for the services they provide. These should be set out in the Statement of Advice given to you by your financial adviser. The Responsible Entity pays no commissions related to your investments to financial advisers.

Differential fees

A rebate of part of the management costs or lower management costs may be negotiated with investors who are wholesale clients for the purposes of the Corporations Act. Further information can be obtained by contacting us.

Changes in fees

Fees may increase or decrease for a number of reasons including changes in the competitive, industry and regulatory environments or simply from changes in costs. The Responsible Entity can change fees without an investor’s consent but will provide investors with at least 30 days written notice of any fee increase.

10. About the Securities Exchange Rules and CHES

Securities Exchange Rules

An application has been made to the Securities Exchange Operator for the units in the Fund to be admitted to quotation on the Securities Exchange under the Securities Exchange Rules. The Securities Exchange Rules are accessible at www.asx.com.au.

As at the date of this PDS, the units are not yet quoted on the Securities Exchange.

The following table sets out the key differences between the Listing Rules and the Securities Exchange Rules.

Requirement	Listing Rules	Securities Exchange Rules
Continuous disclosure	Issuers are subject to continuous disclosure requirements under Listing Rule 3.1 and section 674 of the Corporations Act.	<p>Issuers of products quoted under the Securities Exchange Rules are not subject to the continuous disclosure requirements in Listing Rule 3.1 and section 674 of the Corporations Act. Corporate governance	Listed companies and listed managed investment schemes are subject to notification requirements under the Corporations Act and the Listing Rules relating to takeover bids, buy-backs, change of capital, new issues, restricted securities, disclosure of directors' interests and substantial shareholdings.	Although the units are quoted under the Securities Exchange Rules, neither the Fund nor the Responsible Entity itself is listed and they are therefore not subject to certain corporate governance requirements. The Responsible Entity will still be required to comply with the related party requirements in Part 5C.7 and Chapter 2E of the Corporations Act and section 601FM of the Corporations Act including that the Responsible Entity may be removed by an extraordinary resolution of members on which the Responsible Entity would not be entitled to vote.
Related party transactions	Chapter 10 of the Listing Rules relates to transactions between an entity and a person in a position to influence the entity and sets out controls over related party transactions. Auditor rotation obligations	Division 5 of Part 2M.4 of the Corporations Act imposes specific rotation obligations on auditors of listed companies and listed managed investment schemes.	Issuers of products quoted under the Securities Exchange Rules are not subject to the auditor rotation requirements in Division 5 of Part 2M.4 of the Corporations Act. An auditor will be appointed by the Responsible Entity to audit the financial statements and Compliance Plan of the Fund.

About CHES

The Responsible Entity participates in the Clearing House Electronic Sub-register System ("CHES"). CHES is a fast and economical clearing and settlement facility which also provides an electronic sub-register service. The Unit Registry has established and will maintain an electronic sub-register with CHES on behalf of the Responsible Entity.

The Responsible Entity will not issue investors with certificates in respect of units held on the CHES sub-register. Instead, when investors purchase units on the Securities Exchange they will receive a holding statement which will set out the number of units they hold. The holding statement will specify the HIN allocated by CHES or SRN allocated by the Unit Registry.

Subject to the Securities Exchange Rules, Clearing Rules and Settlement Rules, the Responsible Entity may decline to register a purchaser of a unit or units transacted on the Securities Exchange.

11. Taxation

Investing in the Fund is likely to have tax consequences. Before investing in the Fund, investors are strongly recommended to seek their own professional tax advice about the applicable Australian tax consequences and, if appropriate, foreign tax consequences that may apply to them based on their particular circumstances.

The taxation information contained in this PDS reflects the income tax legislation in force, and the interpretation of the Australian Taxation Office and the courts, as at the date of issue of this PDS. Taxation laws are subject to continual change and there are reviews in progress that may impact the taxation of trusts and investors.

AMIT Regime

The Fund has elected to become an Attribution Managed Investment Trust ("AMIT"). Accordingly, investors will be subject to tax on the income of the Fund that is attributed to them under the AMIT rules each year ending 30 June. If there is income of the Fund that is not attributed to an investor, the Fund will be subject to tax at the highest marginal rate (plus the Medicare levy) on that non-attributed income. The AMIT rules also allow the Fund to reinvest part or all of your distribution and/or accumulate part or all of the Fund's income in the Fund, in which case the income of the Fund that is attributed to you (and which must be included in your income tax return) will be more than the total distribution you receive.

Investors will be assessed for tax on the net income and net capital gains generated by the Fund that is attributed to them under the AMIT rules. Investors will receive a tax statement after the end of each financial year (referred to as an AMIT Member Annual Statement) that will provide them with details of the amounts that have been attributed to them by the Fund to assist them in the preparation of their tax return.

If the Fund was to incur a tax loss for a year then the Fund could not attribute that loss to investors. However, subject to the Fund meeting certain conditions, the Fund may be able to recoup such a loss against taxable income of the Fund in subsequent income years.

Depending on an investor's particular circumstances, they may also be liable to pay capital gains tax (or income tax if they hold their units on revenue account) when they withdraw units.

Taxation of non-resident investors

If a non-resident investor is entitled to taxable income of the Fund, the investor may be subject to Australian tax at the rates applicable to non-residents. If you are a non-resident, you may be entitled to a credit for Australian income tax paid by the Responsible Entity in respect of your tax liability.

Taxation reforms

Reforms to the taxation of trusts are generally ongoing. Investors should seek their own advice and monitor the progress of announcements and proposed legislative changes on the potential impact to their investment.

Quoting your Tax File Number (“TFN”) or an Australian Business Number (“ABN”)

It is not compulsory for investors to quote their TFN, ABN, or exemption details. However, should an investor choose not to, the Responsible Entity is required to deduct tax from an investor’s distributions at the maximum personal rate (plus the Medicare levy). Collection of TFNs is permitted by taxation and privacy legislation.

GST

Your investment in the Fund will not be subject to goods and services tax.

Foreign Account Tax Compliance Act

Under the Foreign Account Tax Compliance Act (“**FATCA**”), the Responsible Entity is required to collect and report information about certain investors identified as U.S. tax residents or citizens. In order to comply with its FACTA obligations, the Responsible Entity may request investors to provide certain information (“**FATCA Information**”).

To the extent that all FATCA Information is obtained, the imposition of US withholding tax on payments of US income or gross proceeds from the sale of particular US securities shall not apply. Although the Responsible Entity attempts to take all reasonable steps to comply with its FATCA obligations and to avoid the imposition of the withholding tax, this outcome is not guaranteed.

Under the terms of the intergovernmental agreement between the US and Australian governments, the Responsible Entity may provide FATCA Information to the Australian Taxation Office (“**ATO**”). Please be aware that the Responsible Entity may use an investor’s personal information to comply with FATCA and may contact an investor if additional information is required.

Common Reporting Standard

The Common Reporting Standard (“**CRS**”) requires the Responsible Entity to collect certain information about an investor’s tax residence. If an investor is a tax resident of any country outside Australia, the Responsible Entity may be required to pass certain information about the investor (including account-related information) to the ATO. The ATO may then exchange this information with the tax authorities of another jurisdiction or jurisdictions, pursuant to intergovernmental agreements to exchange financial account information.

Although the CRS does not involve any withholding tax obligations, please be aware that the Responsible Entity may use an investor’s personal information to comply with the CRS obligations, and may contact an investor if additional information is required. The account opening process cannot be completed until all requested information has been provided.

12. Additional information

Additional disclosure information

The Fund is subject to regular reporting and continuous disclosure obligations. Copies of documents lodged with ASIC may be obtained from, or inspected at, an ASIC office. Investors can also call the Responsible Entity to obtain copies of the following documents, free of charge:

Fund’s Constitution

The operation of the Fund is governed under the law and the Constitution of the Fund which addresses matters such as NAV per Unit, withdrawals, the issue and transfer of units, investor meetings, investors’ rights, the Responsible Entity’s powers to invest, borrow and generally manage the Fund and the Responsible Entity’s fee entitlement and right to be indemnified from the Fund’s assets. In accordance with the Constitution, the Responsible Entity may provide investors with the ability to request a withdrawal of their investment in the Fund directly with the Responsible Entity.

The Constitution states that an investor’s liability is limited to the amount the investor paid for their units, but the courts are yet to determine the effectiveness of provisions of this kind.

The Responsible Entity may alter the Constitution if it reasonably considers the amendments will not adversely affect investors’ rights. Otherwise, the Responsible Entity must obtain investors’ approval at a meeting of investors. The Responsible Entity may retire or be required to retire as Responsible Entity (if investors vote for its removal). No units may be issued after the 80th anniversary of the date of the Constitution. The Responsible Entity may exercise its right to terminate the Fund earlier. Investors’ rights to requisition, attend and vote at meetings are mainly contained in the Corporations Act.

Investors can inspect a copy of the Constitution at the Responsible Entity’s head office or the Responsible Entity will provide a copy free of charge.

ASIC relief

ASIC Class Order 13/721 exempts the Responsible Entity from the ongoing disclosure requirements in section 1017B of the Corporations Act on the condition that the Responsible Entity complies with section 675 of the Corporations Act as if the Fund was an

unlisted disclosing entity and includes statements in any PDS for interests in the Fund to the effect that Magellan will comply with the continuous disclosure requirements of the Corporations Act as if the Fund was an unlisted disclosing entity.

Conditions of admission

As part of the Fund's conditions of admission to quotation on the Securities Exchange under the Securities Exchange Rules, the Responsible Entity has agreed to:

- a) disclose the Fund's portfolio holdings on a quarterly basis within two months of the end of each calendar quarter;
- b) provide liquidity to investors on the Securities Exchange by acting as a buyer and seller of units as described in this PDS; and
- c) provide the iNAV as described in this PDS.

NAV Permitted Discretions Policy

The Responsible Entity's NAV Permitted Discretions Policy provides further information about how it calculates NAV per Unit. The policy complies with ASIC requirements. The Responsible Entity will observe this policy in relation to the calculation of the NAV per Unit and will record any exercise of discretion outside the scope of the policy. Investors can request a copy of the policy free of charge by calling the Responsible Entity on +61 2 9235 4888.

The Responsible Entity may also request a certified copy of the bank statement.

We require your instructions to be signed by the nominated signatory on your account. If you have nominated joint signatories for the account, both should sign notifications of changes in any of your details.

Cooling-off period

Cooling-off rights do not apply to units in the Fund (regardless of whether they were bought on the Securities Exchange or applied for directly with the Responsible Entity) however a complaints handling process has been established (see "Complaints resolution" for further information).

Complaints resolution

Mainstream Fund Services Pty Ltd ("**Mainstream**") has been appointed as the Unit Registry of the Fund under a Registry Services Agreement. The Registry Services Agreement sets out the services provided by the Unit Registry on an ongoing basis together with the service standards.

The role of the Unit Registry is to keep a record of investors in the Fund. This includes information such as the quantity of units held, TFNs (if provided), bank account details and details of distribution reinvestment plan participation to the extent the Responsible Entity offers such a plan.

Consents

The following parties have given written consent (which has not been withdrawn at the date of this PDS) to being named in the form and context in which they are named, in this PDS:

- Mainstream Fund Services Pty Limited; and
- The Northern Trust Company.

Each party named above who has consented to be named in the PDS:

- has not authorised or caused the issue of this PDS;
- does not make or purport to make any statement in the PDS (or any statement on which a statement in the PDS is based) other than as specified; and

to the maximum extent permitted by law, takes no responsibility for any part of the PDS other than the reference to their name in a statement included in the PDS with their consent as specified.

Anti-money laundering and counter terrorism financing (AML/CTF)

Australia's AML/CTF laws require us to adopt and maintain an AML/CTF Program. A fundamental part of the AML/CTF Program is that we know certain information about investors in the Fund. To meet this legal requirement, we need to collect certain identification information and documentation ("**KYC Documents**") from you if you are a new investor. We may also ask an existing investor to provide KYC Documents as part of a re-identification process to comply with the AML/CTF laws. Processing of applications or redemptions will be delayed or refused if you do not provide the KYC Documents when requested.

Under the AML/CTF laws, we may be required to submit reports to the Australian Transaction Reports and Analysis Centre ("**AUSTRAC**"). This may include the disclosure of your personal information. We may not be able to tell you when this occurs and, as a result, AUSTRAC may require us to deny you (on a temporary or permanent basis) access to your investment.

This could result in loss of the capital invested, or you may experience significant delays when you wish to transact on your investment. We are not liable for any loss you may suffer because of compliance with the AML/CTF laws.

Privacy policy

As required by law, the Responsible Entity has adopted a privacy policy that governs the collection, storage, use and disclosure of personal information. This includes using an investor's personal information to manage their investment, process any distributions that may be payable and comply with relevant laws.

For example, an investor's personal information may be used to:

- ensure compliance with all applicable regulatory or legal requirements. This includes the requirements of ASIC, the Australian Taxation Office, the Australian Transaction Reports and Analysis Centre, Securities Exchange Operator, CHESS Settlements and other regulatory bodies or relevant exchanges including the requirements of the superannuation law; and
- ensure compliance with the AML/CTF Act, FATCA and with CRS.

The Responsible Entity may be required to disclose some or all of an investor's personal information, for certain purposes (as described under the Privacy Act 1988 (Cth)) to:

- the Fund's service providers, related bodies corporate or other third parties for the purpose of account maintenance and administration and the production and mailing of statements, such as the Unit Registry, Custodian or auditor of the Fund and certain software providers related to the operational management and settlement of the units; or
- related bodies corporate that might not be governed by Australian laws for the purpose of account maintenance and administration.

The Responsible Entity may also disclose an investor's personal information to:

- market products and services to them; and
- improve customer service by providing their personal details to other external service providers (including companies conducting market research).

If any of the disclosures in the previous bullet points require transfer of an investor's personal information outside of Australia, the investor consents to such transfer.

All personal information collected by the Responsible Entity will be collected, used, disclosed and stored by the Responsible Entity in accordance with its privacy policy, a copy of which will be made available on request.

Additional information for New Zealand investors

This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

This offer and the content of the PDS are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act sets out how the offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between the currency for the financial products and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

The dispute resolution process described in this PDS is available only in Australia and is not available in New Zealand.
